How We Begun

Inkless is More was born out of recognizing one's worth without limiting the power to be yourself and the need to bring safe and effective tattoo removal in Kenya. Society at some point tries to squeeze us into a box of particular existence, and Kenya is no exception. At Inkless is More, we recognize that tattoos can hold a special meaning or categorize a person in a way, but our tastes and lives evolve.

Inspired by the possibility to offer safe and effective laser tattoo removal services in Kenya, we set out to create a solution that would make tattoo removal an affordable, accessible and comfortable experience. With an expertise background in laser technology and skin health, Inkless is More has brought together a team of skilled professionals, invested in state-of-the-art Picosecond laser technology, and created a welcoming, non-judgmental space for tattoo removal clients looking for new beginnings or change to feel comfortable and safe.
